

Dermaplaning Pre Treatment Guidelines

- New clients: fill out the online skin consultation prior to booking.
- Discontinue physical exfoliants, AHA's and/or BHA's 7-14 days prior to treatment.
- No IPL treatment within 14 days (photo facial).
- No injections 7 days prior.
- No Accutane within 12 months.
- No antibiotics within the last 6 weeks.
- No use of prescription retinoids.
- Avoid direct, intense sun exposure 3-5 days prior to your service.
- Do not book facial hair removal elsewhere 1-2 weeks prior. If necessary I can wax an area, and Dermaplane around it on the same day.
